DETAILED ACTION

Reissue Applications

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The oath/declaration does not identify each inventor by full name and country of citizenship as required by 35 USC 115 and 37 CFR 1.63(a)3.

Claims 1-72 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 53-72 are rejected under 35 U.S.C. 102(e) as being fully met by Shimizu.

Shimizu (USP 5,696,342) discloses a tone waveform generating method and apparatus based on software that comprises a processor, a sound source module, and load detector as recited (see Col. 1 lines 45-64) wherein the variable period or frequency is controlled (see Col. 8 lines 17-21).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the Notice of Reference Cited was cited in the parent application to this reissue application.
